Profile Summary

With over 4 years of experience in the Salesforce domain, I have developed a strong expertise in Salesforce administration, configuration, and implementation. My proficiency in Apex and the Force.com platform has enabled me to develop effective solutions for diverse functional requirements. I have successfully developed Apex classes, Controller classes, and Apex Triggers, and have also created Lightning Web Component (LWC) frameworks for web applications. I have a proven ability to handle successful Salesforce deployments, streamline workflows, and deliver effective solutions. My experience extends to data management, declarative features, and security implementation. I have actively participated in 2+ projects, demonstrating strong problem-solving skills and the ability to work collaboratively with team members and stakeholders. I stay updated with the latest Salesforce features and technologies, continuously enhancing my skills and contributing to the success of projects.
